

Practice what you have learned!

1. Identify a topic from your CHA/CHIP that is still a priority or select a new priority that the community wants to focus on.
2. What data do you have? What gaps are in your data?
3. Who is most affected by this issue?
4. Who needs to be at the table to collect data about this issue? Consider who is missing that should be included. Have some of the issues around this topic changed, and does that impact who you might bring to the table?
5. What data collection methods would you want to use? What might some of the challenges be with those methods?
